I T A L I A

magazine

La mia passione per l'armonia parte dalla fanciullezza. Ricordo che all'età di nove anni ho visitato per la prima volta un salottificio alla periferia del paese, e la mia mente già fantasticava, progettava, vedeva scorrere diapositive di operai al lavoro, io osservavo ogni loro gesto, carpivo, immagazzinavo informazioni tanto da sentirmi parte di quella fantasia, perché erano già le mie mani che tagliavano quella pelle, era già la mia passione che tracciava la mia strada, disegnava le mie aspirazioni, nutriva la mia grande scommessa. Oggi so che è stata la mia immaginazione e la mia grande passione a condurmi sin qui.

My passion for harmony began since my childhood. I remember that at the age of nine I visited, for the first time, a sofa company in the outskirts of my town, and I began to fantasize, plan and passing through my mind's eye, I saw operators at work, I started to gather and store information such as to feel myself part of that fantasy, as though my hands were already cutting the leather; it was my passion that traced my way, my aspirations, nourished my big gamble. Today I know it was my imagination and my passion which led me to this point.
